1935 STEEL BRIDGE PLYMOTH

TO HOLDERNESS

This single span steel bridge marks the fourth structure across the Pemigewasset River between Plymouth and Holderness.

History from 1797 to 1935 shows the changes from the old ferry days to the present method of bridge transportation. We are interested in old town records which prove — without much doubt — that the first transportation across the river between Plymouth and Holderness was a ferry.

In 1797 a toll bridge was erected. This **first bridge** across the river between the two towns was washed away by flood. Afterward a ferry was maintained until 1810. Some of the records state that the ferry was above the present bridge, others that a ferry was above the passenger station.

During the year 1810 **another toll bridge** was erected across the river which was eventually carried away by high water.

The **third** and last wooden bridge was a covered structure known as the "Pont Fayette Bridge." By 1844 the people really became bridge minded and built this bridge on heavy piers above flood water; this structure was 278 feet long and 22 feet wide and stood the wear and tear of time and high water for 90 years —1844 to 1934; during this period this structure became a Free Bridge.

It Is Said — —

This third bridge was named in honor of General Lafayette who, on his way to Dartmouth College, stopped to visit Judge Samuel Livermore of Holderness; a most outstanding man.

The present single span steel bridge, built in 1935, was a P. W. A. project. Plymouth's share was 20—$600.00 bonds, one bond and interest payable yearly.

To look at the page in the Plymouth 1935 town book—where our 1935 Town Treasurer Wm. Sweeney recorded this list of 20 bonds—always gives us "an eye full" because Sweeney was a most outstanding penman with few equals. Now we get real satisfaction, because we see the word paid marked opposite each bond; last payment on bond No. 20 was Dec., 1953.

THANK YOU TAXPAYERS

We now own 7/8 of Plymouth to Holderness Bridge.

PUBLIC HEALTH NURSE'S REPORT

Mr. Arthur L. Carpenter, Jr., Health Officer
12 Pleasant Street
Plymouth, N. H.

Dear Mr. Carpenter:

The following is a report of activities carried on in the Town of Plymouth by the N. H. Department of Health, Bureau of Public Health Nursing, for the year of 1953.

A series of three Child Health Conferences and Immunization Clinics were held at the Grange Hall on March 19, April 9th and April 30th.

Forty-three babies and preschool children were given complete physical examinations by a local physician.

There was a total attendance at the Immunization Clinics of 184. Total number of immunizations completed was 92. Total number of vaccinations completed was 39.

The immunizations given included protection for diphtheria, tetanus and whooping cough and vaccinations for smallpox.

I wish to express my sincere thanks to the Plymouth Grange for the use of their hall, Durand-Haley Unit No. 66 of American Legion Auxiliary for the efficient assistance of their members, the School and School Nurse, the local physicians and local nurses for helping make these clinics a success. Without their help we would be unable to carry on this worthwhile work in the community.

The State Department of Health Nurse also made home calls on Babies, Preschool Children, Handicapped Children and Adults. She also gave assistance in arranging and distributing baskets to about 40 families at Xmas in Plymouth and small surrounding communities.

LOIS W. BARTON, R.N.,
Public Health Nurse,
N. H. Department of Health

AUDITORS' REPORT

We have examined, as prescribed by law, the books and records maintained by the Selectmen, Town Treasurer, Town Clerk, Tax Collector, Road Agent, Overseer of the Poor, Trustees of Trust Funds, Treasurer of the Library Trustees and Justice of the Municipal Court.

We have verified cash balances and reconciled bank statements for all officials having town business bank accounts. The individual expenditures were verified by comparison of authorization with issued checks.

We have examined the securities in the Trust Funds.

We have examined the surety bonds of the Town Treasurer, Tax Collector, Town Clerk, Trustees of Trust Funds and Road Agent.

We have burned the last $600.00 Town of Plymouth Bridge Bond No. 20 and interest coupons totaling $24.00.

MILTON E. PETTENGILL,

LEON M. HUNTRESS,

Plymouth, N. H. Auditors

STATE OF NEW HAMPSHIRE

To the inhabitants of Plymouth Village Fire District qualified to vote in District Affairs:

You are hereby notified to meet at the Guy E. Speare Auditorium on Thursday, the eleventh day of March next, at 7:30 o'clock in the afternoon to act on the following subjects.

Article 1. To choose a Moderator for the ensuing year.

Article 2. To choose a Clerk for the ensuing year.

Article 3. To choose a Treasurer for the ensuing year.

Article 4. To choose three Fire Commissioners for the ensuing year.

Article 5. To choose one Water Commissioner for the ensuing three years.

Article 6. To choose one Water Commissioner for the ensuing year.

Article 7. To choose Auditors for the ensuing year.

Article 8. To see what sum of money the District will vote to raise for fire apparatus, supplies, care of fire alarm system, pay of firemen and other necessary expenses of said District for the ensuing year.

Article 9. To see what sum of money the District will vote to raise for Sidewalks.

Article 10. To see what sum of money the District will vote to raise for fire protection, for the ensuing year.

Article 11. To see what sum of money the District will vote to raise for sewer purposes.

Article 12. To see what action the District will take regarding the salaries of the District Officers.

Article 13. (a) To see if the District will vote to install a suitable water main for fire protection and other purposes along Route 3, Daniel Webster Highway so-called, in said Plymouth, New Hampshire, from Foster Street so-called, in a northerly direction to Fred Rowe's corner so-called, and thence in a westerly direction along the Rumney Road so-called, to the property line of Merlond McLoud, and raise and appropriate money for the same.

(b) To see if the District will vote to authorize the Water Commissioners to borrow such a sum of money as will be necessary and sufficient to construct a water main along Route 3, Daniel Webster Highway so-called in Plymouth, New Hampshire, from Foster Street so-called, in a northerly direction to Fred Rowe's Corner so-called, and thence in a westerly direction along the Rumney Road so-called, to the property line of Merlond McLoud, and issue bonds therefor.

Article 14. To see if the District will vote to adopt a plan for extending to employees of the District the benefits of title II of the Federal Social Security Act (Old-Age and Survivor's Insurance) as authorized by Chapter 234 of the Laws of 1951.

Article 15. If the foregoing article is adopted, to see if the District will authorize the Commissioners to execute on behalf of the District the necessary agreement with the State of New Hampshire to carry into effect the plan and to see if the District will designate the Treasurer as the officer to be responsible for the Administration of the plan.

Article 16. To see if the District will direct the District Commissioners to take such steps as are necessary to secure authorization from the New Hampshire General Court so that a Zoning Ordinance may be enacted for the Plymouth Village Fire District.

Article 17. To see if the District will vote to authorize its Commissioners to borrow such sums of money as may be necessary to pay debts of the District and to give notes therefor, countersigned by the District Treasurer.

Article 18. To transact any other business that may legally come before the said district.

Given under our hands this fifteenth day of February, 1954.

AUDITORS' REPORT

We have audited the cash books of the Treasurer of the Plymouth Village Fire District and Plymouth Village Water and Sewer Departments, and have found the entries therein correctly cast and well vouched.

We have prepared reports and summaries which represent the scope of the financial transactions in these departments.

We have examined the surety bond of the Treasurer.

We have burned Sewer Bonds numbered 53, 54, 55 and 56, totalling $4,000.00, with coupons numbered 53, 54, 55 and 56. We have also burned twelve $1,000.00 Water Bonds, totalling $12,000.00, numbered 13-24. We have also burned coupons 13-99, 100-122, 113-199 and 200-300, (April 1953) and coupons 25-36, 40-44, 50-99, 100-122, 133-199, 200-300, (October 1953).

WATER DEPARTMENT

Rebuilding of the Water System

As stated in the 1952 report there were some out standing bills covering the rebuilding of the water system. These bills were paid in January of this year amounting to $6,629.48 making a total cost $320,941.06 for rebuilding the system.

The revenues for the same are as follows:

Bonds sold	$300,000.00
Premium received on Bonds	1,197.90
Net Interest received from cash on hand	563.75
Miscellaneous	366.98
Total	$302,128.63

An expenditure of $18,812.43 over the estimate, which we expect will be more than covered when we get a settlement with the bonding company. As stated in the 1952 report a suit is pending before the United States Federal Court and as yet no date has been set for the trial.

There are two major items which should be done as soon as funds are available. There should be fencing at both the upper and lower pumping stations, and there should be a storehouse built at the upper pumping station to store valuable material which is now stored out of doors.

During the year we have made several improvements in the system, and anticipate making many others with our own force as time and funds permit.

As of February 1, 1953 there was substantial reduction in fire insurance rates. To the best of our knowledge all those residing within the District, except those who live on the Rumney Road, have received the benefit of these reductions, which are possible because of the rebuilding of the water system.

Randolph Street Extension

During the year we laid 451 feet of six inch cast iron cement lined pipe to the Burghardt house at the end of the street. A hydrant was also installed at the junction of Silver Lane which makes it possible for those living in that section to receive the reduced fire insurance rate.

The Randolph Street project cost $2,336.02, and was financed as follows: At the Annual District meeting of March 15, 1951 under Article 9 there was raised $4,500.00 to lay sewer and water mains along Randolph Street from Merrill Street to the Buckland property, which is at the south end of the Street. In 1952 we laid 186 feet of sewer pipe, and 191 feet of water pipe at a cost of $2,857.12, leaving a balance of $1,642.88 which was carried in the Sewer Department account. In 1953 this account was transferred to the Water Department. Water Department owned material amounting to $887.05 was used.

The cost for the laying the pipe and installing the hydrant amounted to	$ 1,448.97
The cost of Water Department owned material amounted to	887.05
Total cost	$ 2,336.02
Cash transferred from Sewer department account	1,642.88
Balance furnished by the Water Department funds	$ 693.14

During the past dry summer we have had plenty of water, and so far as we know there should be no water shortage in the future. Both of the pumping stations are working satisfactory.

We believe that the present rates will insure the payments of bonds and the operating costs of the system.

SUPERINTENDENT'S ANNUAL REPORT

TO THE PLYMOUTH SCHOOL BOARD:

This is my eleventh and final annual report as Superintendent of Schools in Plymouth. Since Plymouth elementary schools are directed by the Teachers College, this report will deal mostly with those things pertaining to the high school and for that reason, I shall first discuss the status of Plymouth High School.

The program of work in our high school has much to commend it. It is my belief that we have many things to offer in the high school that would be helpful to boys and girls in other schools whose advantages are often considered greater than ours. Our physical education program is so planned that it serves all high school members rather than being concentrated on athletic representatives of the school. Of course, everyone likes a winning team but winning games should never be the prime purpose in physical education. Athletic success may be achieved more slowly, but more surely, when the health and physical development of all pupils, the development of skill and the knowledge of sport fundamentals, and the nurture of good sportsmanship and character are the goals toward which we work. We believe our physical education program does just that.

We have a music program whose offerings are superior to those available to most pupils in schools of our size. It is true that not enough of our high school members take advantage of the opportunity they have but, nevertheless, the opportunity is there. In my opinion, appreciation, understanding of, and ability to participate in music activities will be found by most people the surest way to make satisfactory adjustments to whatever life situations they may have to meet.

Our activity program is unequaled in most high schools of much larger membership than ours. A broad range of activities is available for choice. For several

years, every graduate of Plymouth High School has been required to take part in one extra curricular activity each year of his high school course. That requirement has been made because of the belief that such activity helps greatly in the development of poise and social adjustment both within the school and in later life.

Guidance service is available althought we cannot in a school of our size employ a full-time director of guidance. Changes in personnel result in varying efficiency of our guidance service but, on the whole, it is maintained on a high level. We do not attempt to think for an individual or to make decisions for him but we do try to give him the advice and information that will help him make his own decisions wisely. Such assistance is given for both educational and vocational purposes.

Plymouth High School has been recognized far beyond the limits of New Hampshire for the pioneer work it has done to develop a pilot program in conservation education.

The outstanding features of our high school program came into existence because the school has tried to be responsive to local needs as such needs become apparent. The advice and opinions of Plymouth people have been sought and acted upon whenever it appeared that the school could render more efficient service to those who support it. Any publicly supported institution must follow that kind of plan if it is to enjoy continued approval.

Extensive changes in the teaching force of a school system are not desirable. During the past two years, we have experienced more changes in the faculty than in any other equal period for many years. However, we are not alone in that respect because schools every year have been plagued by the same influences of the law of supply and demand. In spite of the many changes, it is my opinion that Plymouth High School has a teaching staff of whom the Town may be proud.

Our contract with the Veterans Administration for On-the-Farm-Institutional-Training will terminate on April 30, 1954. It seems wise not to renew the present contract. The number of trainees has dropped to a point where continuation of the program would hardly be advisable even though the services of a qualified instructor could be had. Our present instructor, Mr. J. Lincoln Pearson of Rumney, will not be available after the expiration of the present contract. For these reasons, it is my recommendation that the contract ought not to be renegotiated.

The training program just mentioned has served to point up very directly a need that has been recognized for a long time. Our high school ought to be offering a vocational course in agriculture. By so doing, not only Plymouth, but the entire region included in our high school membership, could be better served. The need for this kind of work should be kept constantly in mind even though it cannot be added to our high school without more space and another teacher. The time may come when those obstacles can be removed.

My concluding discussion in this report will direct attention to school buildings and their maintenance, including both elementary and high school. Delayed repairs always cost more in the long run than as though they had been completed in time. Financial pressure and more pressing needs for several years led to putting off those repairs that did not absolutely have to be made. School boards of recent years have been trying to catch up on accumulated needs. The plan now being followed will eventually make that possible even though everything that ought to be done cannot be done in any one year. A considerable saving in fuel has resulted from changing heating lines in the Speare School. As years go by, the cost of the change will be returned many times over in annual savings. The public may be sure that no repairs have been or will be proposed by the School Board that are not based on real need and sound planning. At this time, it should be mentioned that inflammable stage materials in the auditorium

ought to be fire-proofed again this year as a safety measure.

The fine cooperation of School Board members and the loyal and efficient work of the teachers is genuinely appreciated.

Respectfully submitted,

ARTHUR S. ROLLINS,

Supt. of Schools

* EXPLANATION OF SUPERINTENDENT'S SALARY

Section 5, Chapter 243, Laws of 1953, requires that school district annual reports show the total amount paid to the superintendent as per the following quotation:

> "Reports. Each superintendent of a supervisory union shall annually prepare a report showing the total salary paid to the superintendent, which report shall show in detail the amount derived from the per capita tax and the amount paid directly by each school district in the union."

One-half of supervisory union expenses is prorated among the several school districts of the union on the basis of adjusted valuation. One-half is prorated on the basis of average daily membership in the schools for the previous school year, ending on June 30. For the school year 1952-53, the superintendent in Union No. 48 received a salary of $5350 which was made up as follows: $2275 paid from the per capita tax, and $3075 pro-rated among the several school districts. An allowance of $750 for travel within the Union was also pro-rated as stated above.

The tabulation below shows the percent of Union Expenses and the portion of salary and travel charged to each school district.

	Salary	Travel
Wentworth	$ 148.59	$ 47.25
Woodstock	412.57	122.17
Campton	452.84	145.58
Dorchester	60.73	16.73
*Plymouth	1,508.77	262.20
Rumney	322.49	109.35
Thornton	169.01	46.72
	$ 3,075.00	$ 750.00

$3,075—Share of districts
2,275—Share of State from Per Capita Tax

$5,350—Basic salary of Superintendent
750—Travel allowance

$6,100—Received from State Treasurer

PRINCIPAL'S ANNUAL REPORT

To the Superintendent of Schools:

I herewith submit my second annual report as Principal of Plymouth High School.

Several people have asked whether Plymouth High School is an accredited school. I would like to take this opportunity to explain this question.

Plymouth High School is a member of the New England Association of Colleges and Secondary Schools, which is the only acceptable accrediting agency in the New England States, both for secondary schools and colleges.

There were only 23 New Hampshire School members in this agency as of September 1953, and Plymouth is one of them.

Before a school is admitted to this organization, it must meet certain standards in faculty, equipment, supplies used, curriculum offered, special services, etc.

Our school has met these standards and is constantly improving upon them to insure our continued membership.

We are one of the few high schools of our size that offer two languages for three years, four years of mathematics, four years of the sciences, a full time Physical Education instructor, a full time music instructor and a guidance department.

Our students will be accepted by all schools on our certification except those that demand examinations of all entering students.

Certification means that a student has earned an average of at least 85 in all his subjects and that he pursued the required courses necessary for admittance to the various colleges.

Students not attaining a certifying grade may take examinations for entrance to the colleges of their choice.

Some of our state colleges will accept students if they are in the upper forty percent of their class, or the upper fifty percent.

Graduates of our school do not have to attend a preparatory school, if they have earned the required scholastic average and have pursued the required courses for the college of their choice.

PLYMOUTH ELEMENTARY SCHOOL REPORT

To the School Board, Superintendent of Schools, Parents and Citizens of Plymouth:

My last annual report as principal of the elementary schools of Plymouth is herewith submitted to you.

The list of teachers with grade assignments and enrollments for this year and last follows:

Grade	Teacher	Enrollment Jan. 1954	Jan. 1953
Kindergarten	Mrs. Ella Batchelder	37	56
1	Mrs. Hazel Bullen	60	62
	Mrs. Thelma Dolloff		
2	Miss Najla Samaha	63	49
	Miss Carolyn Wynott		
3	Mrs. Rosa Ahern	46	42
	Miss Dorothy O'Neill		
4	Miss Rosemary Dickerson	41	55
	Miss Martha Rand		
5	Miss Lulu Hoyt	49	55
	(Mrs. Frances Clay, substitute)		
	Mrs. Ellen Tapply		
6	Mrs. Mildred Potter	52	34
	Mrs. Lois Querim		
7	Mr. Philip Tapply	32	36
8	Mrs. Marian Sanford	38	51
	Miss Pauline Spitzner		
		418	440

As you will notice from the table, the trend is that more children are leaving than are entering school. The River Street children are in the new school at Holderness this year. This accounts for a small decrease.

The teaching corps has varied slightly since last year. Miss Betty Sutcliffe again took up her duties in England in September. Mrs. Thelma Dolloff returned

from her year of exchange teaching and resumed work in her first grade. Miss Patricia Cogswell resigned in June to take a position in Massachusetts and Miss Najla Samaha of Plymouth has that second grade. We are very sorry to state that Miss Lulu Hoyt became ill in October. She is now convalescing at her home in Limerick, Maine, and we hope for her return in the near future. We are fortunate in having Mrs. Frances Clay act as substitute during Miss Hoyt's absence. Due to increasing numbers in the middle grades, a fourth teacher is to be added to the Junior High School staff next year.

School work has progressed much as usual. Our testing of fundamentals last May found our children as a group well above the national norms. Interesting units have been developed, some of which have received statewide attention. It was hoped that the school could put on an operetta this year but, due to Mr. Jorgensen's illness, it has been postponed.

The conference between parents and teachers, which took the place of a first report for first grades, were highly successful. A questionnaire that was sent to parents revealed the following:

Number returned	41
Favorable to the conference	39
Unfavorable	1
Undecided	1

A student teaching handbook was compiled by the teachers last Spring which is useful in acquainting the students with objectives, procedures, routines, etc., of the school. Much time is saved and uniform policies adopted.

Faculty meetings have been attended by college instructors and talks by them on their subjects, and the exchange of ideas which followed, have made for better understandings for all concerned. It results in expediting the work with the children. An art workshop, that was approved by the School Board, is to be held on the afternoons of March 16, 17 and 18.

Bulletins have been sent at intervals from the school to parents. The first one informed them of routine matters; such as school personnel, school calendar, school hours, hot lunch program, etc. It was an attempt to answer questions which parents have frequently asked. Among other matters in the second one, was an article prepared by Mrs. Anna Lovett, health nurse. She attempted to clarify rules pertaining to communicable diseases and to list health habits which make for better school living. Another one on the teaching of arithmetic is to be sent soon.

Parent-Teacher Association meetings have been both interesting and instructive. It is hoped by the teachers that more parents will attend in the future. It is the one place where parents and teachers meet as a group for exchange of ideas, information about school affairs, and all other matters which have to do with children.

You are always welcome to visit the school and have conferences with any of us. Your aim, in common with ours, is to work for the betterment of our children.

Fifteen happy years have passed since I came to Plymouth. The time has now come when younger, stronger hands than mine shall carry on the task. May I take this opportunity to thank all of you for the courtesies you have extended, the help I could always depend upon, and the joy that has been mine in the sharing of your children.

My very best wishes for you all,

STELLA H. DURKEE

REPORT OF SCHOOL NURSE

To the Plymouth School Board:

I herewith submit my report as School Nurse which covers the period of the school year 1952-1953.

763 pupils were weighed, measured and inspected and symptoms of these defects were found:

Dental	213
Tonsils	88
Vision	59
Nutrition	28
Hearing	22
Posture and Flat Feet	42
Rales in Lungs	3
Nervous System	4
Orthopedic	8
Heart	1

The High School pupils, Kindergarten and first grades were examined by the School Physician, Dr. McIver, and the defects found by him are included in this report. These corrections of defects were reported:

Dental	364
Tonsil Operations	38
New glasses and lens changed	102
Hearing	7

Dental Clinics were held on Fridays from February to June, 1953. Twenty-one children were treated at which time 43 fillings and 31 extractions were done.

Thirty-four children attended the Pre-School Clinic on May 7, 1953, and had physical examinations by Dr. McIver and Dr. DeWitt and also dental checkup by Dr. Crowell.

Nine children had chest examinations and x-rays at the Tuberculosis Clinics held at Plymouth by the N. H. Tuberculosis Association.

Fifty-four children had immunizations at the Well Child Conferences held in April and May, 1953. Two children had glasses through agencies.

The new Maico Audiometer, purchased through the subscriptions of the organizations of Plymouth and surrounding towns, is proving very adequate in screening children who need medical attention because of poor hearing.

The Orthorater given by the Lions Club of Plymouth for use in testing eyes in the upper grades is greatly appreciated and will, no doubt, subsequently prove its worth.

The following communicable diseases were reported:

Chicken Pox	158
Measles	6

I have made 96 grade school calls and 27 at the high school, totaling 123 school calls this year. I have also made 142 home calls, plus innumerable business and phone calls, and written many letters in carrying on the health program in the Plymouth schools.

Healthful living, based on prevention of illness, is constantly being taught in the classrooms by the teachers. As one has said, "To cure is the voice of the past; to prevent, the divine whisper of today."

I thank the School Board, Superintendent, teachers, pupils and parents for their kind help during the past year.

Respectfully submitted,

ANNA M. LOVETT, R.N.
